EDUCATION

Ansari High School

2012

Razi university

2017 - 2020
BMT Degree

WORK EXPERIENCE

Alkhaleej Medical Lab **(Trainee)**

1399–1400

Stellar Communications Pvt Ltd (Team lead operations)
2022–2025
I have been very responsible till the date I had joined. I had enriched myself with lots of skills and work experiences to date.

SKILLS

- Computer Skills
- Strong Decision Maker
- English Language Training
- Expert in medical technology
- Innovation
- Service – Focused

CERTIFICATES

1. School Diploma – (Ansari High School)
2. University Diploma – (Razi Institute)
3. English language Diploma (DEL) – (Nawi Roshan Academic Center)
4. Stellar Communication PVT LTD
5. Certificate of completion in office package – (computer Science & English Language Center.

TECHNICAL & LABORATORY SKILL

- Phlebotomy (blood draw)
- Proper labeling and transport of samples
- • Hematology (e.g., CBCs)
- • Clinical Chemistry (e.g., glucose, electrolytes)
- • Microbiology (e.g., cultures, staining)
- • Immunology/Serology (e.g., antibody testing)
- • Blood Banking/Transfusion Services
- • Urinalysis and body fluids analysis

KEY RESPONSIBILITIES

- Performed diagnostic testing across multiple laboratory departments, including **Clinical Chemistry, Hematology, Immunology, and Microbiology**
- Collected, labeled, and processed specimens following strict **biosafety and infection control protocols**
- Operated and calibrated a variety of laboratory analyzers (e.g., **Cobas, Sysmex, Abbott systems**)
- Conducted **routine quality control** procedures to ensure accuracy and reliability of test results
- Maintained accurate patient records and ensured timely entry of results into the **Laboratory Information System (LIS)**
- Collaborated with pathologists, nurses, and medical staff to provide **critical diagnostic support**
- Adhered to **international laboratory safety standards** and maintained a clean, organized work environment

KEY ACHIEVEMENTS

- ✅ **Processed over 300 samples per day** with a 98% accuracy rate and minimal need for re-runs
- ✅ Helped reduce turnaround time for routine tests by **20%** through efficient workflow management
- ✅ Assisted in implementing **new QC protocols** that improved compliance with external audits
- ✅ Played a key role during **COVID-19 testing**, ensuring timely and accurate RT-PCR results under pressure
- ✅ Trained 2–3 junior staff members and new interns in sample handling and equipment usage
- ✅ Maintained **zero incidents** of contamination or sample mix-ups during tenure
- ✅ Consistently received positive feedback from senior staff for **reliability and attention to detail**
